Open to Nigeria-based, worldwide remote, and relocation opportunities

PROFESSIONAL SUMMARY

Front-End Engineer with 5+ years of experience building responsive, user-friendly web and mobile interfaces using TypeScript, Next.js, React, and React Native. Experienced in developing reusable UI components, integrating APIs, implementing authentication, optimizing performance, and delivering responsive digital experiences. Additional background in AI-enabled products, automation, and collaborative software development.

CAREER HIGHLIGHTS

- Member of the IT team contributing to the development and improvement of CribFind, a property marketplace platform.
- Contribute to front-end development, focusing on responsive layouts and user-friendly interfaces.
- Support the development of consistent web experiences across desktop, tablet, and mobile devices.
- Collaborate with team members to improve interface usability, functionality, and overall product quality.

PROFESSIONAL EXPERIENCE

Front-End Engineer | Africanty

Remote · 2024 – Present

- Develop responsive, user-friendly web interfaces using modern front-end technologies such as HTML, CSS, JavaScript, and React.
- Build reusable UI components and interactive website features to deliver consistent user experiences across devices.
- Translate UI/UX designs and website templates into functional, visually consistent web pages.
- Optimize website performance, accessibility, responsiveness, and cross-browser compatibility.
- Integrate front-end interfaces with APIs and backend services to support application functionality.
- Test and troubleshoot interface issues, ensuring reliable functionality and a polished user experience.

Front-End Engineer | CloudEdge

Lagos, Nigeria · 2022 – 2023

- Develop and maintain responsive, user-friendly web interfaces.
- Create reusable UI components and consistent page layouts across different screen sizes.
- Improve website usability, accessibility, and front-end performance.
- Collaborate with team members to implement designs and improve digital experiences.

Front-End Developer | PRIMO Industries

Lagos, Nigeria · Aug 2026 – Present

- Develop and maintain responsive websites, landing pages, and user interfaces across different screen sizes.
- Build user-friendly web experiences with a focus on usability, visual consistency, and accessibility.
- Create and refine page layouts, reusable UI components, and interactive interface elements.
- Collaborate with cross-functional teams to translate business and design requirements into functional web interfaces.
- Optimize website performance, responsiveness, and cross-browser compatibility.
- Integrate front-end interfaces with APIs and backend services as required.
- Maintain consistent design patterns and improve the overall user experience across digital platforms.
- Test and troubleshoot interface issues to ensure reliable functionality and a polished user experience.
- Apply front-end development best practices to produce clean, maintainable code.
- Contribute to continuous website improvements based on project requirements and user needs.

UI/UX Designer | CribFind (IT Team)
Dates to be confirmed

• Lead UI/UX design for CribFind, a property marketplace platform, as part of the IT team.

• Use Figma to create user interface designs and user experiences focused on usability and visual consistency.

• Design page layouts, interface elements, and user journeys to make the platform intuitive and easy to navigate.

• Collaborate with IT team members to communicate design concepts and support their implementation.

• Maintain consistent design patterns and consider usability across desktop, tablet, and mobile screen sizes.

SELECTED PROJECTS & PRODUCTS

CribFind | UI/UX Designer
Figma · Property Marketplace · Product Design

• Lead UI/UX design for CribFind as a member of the IT team, contributing to the platform's visual direction and user experience.

• Design intuitive page layouts, property-browsing interfaces, and user journeys.

• Develop interface concepts and visual layouts in Figma, maintaining consistency across screens and components.

• Collaborate with IT team members to communicate design specifications and support implementation.

• Focus on usability and consistent experiences across desktop, tablet, and mobile.

PRIMO Industries | Website Design & Front-End Project
Website Design · Responsive UI · User Experience

• Contribute to the website's visual presentation and front-end user experience.

• Structure page layouts and interface elements for clear, professional, intuitive browsing.

• Focus on responsive layouts across desktop, tablet, and mobile.

• Apply consistent typography, spacing, and visual hierarchy for brand consistency.

• Consider usability, accessibility, and navigation.

Klasy | E-commerce Website Design
UI Design · Responsive Web Interface · Online Shopping

• Designed a modern e-commerce storefront for a fashion and personal-care brand, presenting clothing and deodorants through a clear shopping experience.

• Structured the homepage with promotional messaging, service highlights, product categories, and brand information.

• Created a shopping interface with clothing and deodorant categories, new arrivals, and best-seller navigation.

• Included account registration and sign-in interfaces, including Google sign-in options.

• Designed shopping support sections covering delivery, returns, payment methods, product quality, and customer support.

• Incorporated an email subscription section for product updates, restocks, and promotional offers.

• Focused on visual consistency, clear navigation, and an accessible storefront layout.
